	<p><b>Pre/Post Tour Lesson Plans STUDENT WORKSHEET</b></p>	
<p>Created by Florida Advanced Technological Education Center, FLATE www.fl-ate.org • www.madeinflorida.org</p>		

## Instructions

In the upcoming days, you will be touring a company. The questions below are designed to help you prepare for this tour

### Part A - Pre-Activity:

Explore the website of the company you will be visiting and answer the following questions.

1. What is the name of the company you will be visiting?
2. What products or parts do they make? If they make parts, what is the finished product?
3. Research job opportunities within the company and find out about educational and skill requirements for the job.
4. Write 2 or 3 questions you would like to know about the company you are going to visit.

### Part B- Engineer's Report: Post Tour Activity

1. List the name of the company you visited and describe three jobs you saw employees perform in the company tour. What are the jobs you think are the most interesting?
2. How these jobs use science, technology, engineering and/or math (STEM)?
3. Plan out the education and career pathway you would need to take from this point, in order to be capable of working in one of the jobs you described in question number 3. (Use the provided "Career pathway" blank worksheet).
4. Guide: What is the company doing for sustainability and/or to protect the environment?
5. Predict: A new product this company might have? Variations to the existing ones?
6. Reflect: Do you see yourself in this career field? Why or why not?
