

ENGINEERING TECHNOLOGY FORUM
With the
Florida Engineering Technology Leadership Council

March 28-29, 2019

Hosted by
Suncoast Technical College – Sarasota Main Campus

To the Engineering Technology Educator:

This is an invitation to attend the 42nd state-wide meeting of the Forum on Engineering Technology in order to address the issues concerning our field of education. Suncoast Technical College will be hosting this spring meeting at their Sarasota Campus. This will be our first visit to Suncoast Technical College with their programs in automation and manufacturing. As you can see from the agenda, we have a most informative program.

The Florida Engineering Technology Leadership Council and the Engineering Technology Forum was established in April 1997 at Seminole Community College (now Seminole State College). The membership includes the department heads and the leaders of the Technology programs in the State of Florida.

The theme of this Forum is Innovations Using Technology and in keeping with that theme the Forum will include best practices related to technology education, AS to BSET articulation, PathTech LIFE, industry collaborations, grant initiatives, professional development, and the issues forum.

This Forum is open to all program chairs, occupational deans, and technical directors concerned with Technology and Technical Education in Florida.

Thank you for your support and we look forward to seeing you on Thursday, March 28, 2019 at Suncoast Technical College.

Brad Jenkins, and Sam Ajlani, College of Central Florida, Co-Chairs, ET Forum
